Summer Camp

Locations:

Highland Elementary School
530 Highland Ave. NE

Morningside Elementary School
3513 12th St SE

Daily Schedule:

Morning Camp

7:00 am - 12:30 pm

7:00-9:00

snack, enrichment & table activities

9:00-12:00

AM camp of choice

12:00-12:30

lunch, enrichment activities

Afternoon Camp

12:30 pm - 6:00 pm

12:30-1:00

lunch, enrichment & table activities

1:00-4:00

PM camp of choice

4:00-6:00

snack, enrichment activities

Snacks and lunch Provided

- Please have campers dropped off before 8:45 am for the AM camp and picked up before 12:30.
- PM session campers must be dropped off by 12:45 pm and can be picked up any time between 4 pm and 6 pm.
- Full day campers must be dropped off by 8:45 am and picked up any time between 4 pm and 6 pm.

Cost:

Half day \$95

Full Day \$165

Registration Deadline:

Deadline to register is one week prior to the camp start date.

Camps fill up fast, so register early!

K-2 camp descriptions

STEM

Freebuilding

Think it, find it, design it, build it. Campers use their imaginations and planning skills to design real-life structures, big or small, out of found and recycled materials. Kids will turn ordinary items such as bed sheets, duct tape, cardboard, and aluminum cans, into wildly unique creations.

July 3-7, AM

Young Inventors

Be the next Thomas Edison! Learn the fundamentals of science and engineering by using salvaged materials, motors, simple machines, and more, to create a variety of functioning inventions. Campers will explore, build, and test models that fly, roll, and move.

July 17-21, AM

We-Do Lego Robotics

Participate in an introduction to robotics by using the LEGO® Education WeDo Construction Set. Campers will use simple machines to explore basic engineering concepts. They will build animals and use sensors to bring them to life. Throughout the week they will complete Lego challenges and test their knowledge.

July 17-21, PM

Hands On Science

Understand the concepts behind molecules, polymers, air pressure, Newton's 3 laws of motion, nutrition, and more, through hands-on activities that make learning fun and exciting. Campers will use everything from soda, water balloons, oil, and iron fortified cereal to explore the wonders of science and natural phenomena.

August 7-11, PM

Backyard Chemistry

What do scrambled eggs, a first aid cold pack, and soda have in common? Chemistry! Campers will spend the week testing physical and chemical reactions through applied experiments with ordinary household products.

June 26-30, AM

August 22-25, PM (No program August 21)

Creatures of Oregon

Learn about Oregon's wackiest creatures that fly, find shelter from rainy skies, and swim in our rivers. Campers will use binoculars to identify local bird species, dissect owl pellets, and discover why Oregon is called the 'Beaver State', with guest speakers from the Salem Audubon Society.

August 14-18, PM

Awesome Eclipse Adventures

Blast off! Campers will navigate fascinating aspects of our solar system, and learn about everything from the Hubble Telescope to the mysterious black holes of deep outer space. They will also engage in activities from NASA's education project and become eclipse experts, in preparation for this summer's historic event: the 2017 total solar eclipse!

July 24-28, PM

August 14-18, AM

Edible Science

Experiments... good enough to eat! Campers will grab a beaker, pick up a whisk, and be ready to cook up some science. Discover dozens of thoroughly tested, fun, and edible experiments, aimed to develop understanding about various scientific processes and topics. Campers will make everything from edible slime to Jello clouds. Bon appétit!

July 31-August 4, AM

Fizz Whiz

Pop! Fizz! Crackle! Become a 'fizzicist', and learn about chemistry by using baking soda, vinegar, and other household materials to create fizzy explosions and reactions. Campers will make lava bubble out of an 'active volcano', watch in amazement as green eggs turn to fizz, and even make their own sparkling lemonade!

July 10-14, PM

Planes, Trains, and Automobiles

All aboard! Campers will discover how we get around by exploring the way things move on wheels, aerodynamics, and the basics of engineering. They will create and experiment with models related to all things transportation, while learning about the science of motion.

August 7-11, AM

ARTS/CRAFTS

Paper Made Magic

Paper, whether it is ripped, shredded, folded, or sculpted, can be transformed into amazing works of art. Campers will make jewelry, journals, vases, toys, and more, out of recycled newspapers and other materials, and experiment with paper mache, origami, quilling, and sewing. At the end of the week, participants will put their marvelous paper creations on display for all to see.

July 10-14, PM

Arts Attack

Express your creativity! Campers will use traditional and mixed media materials to develop artistic skills and present their individuality through art mediums such as painting, printmaking, and portraits. They will learn about famous artists and their amazing influences on society throughout history.

July 17-21, PM

August 22-25, PM

Multicultural Creations

Campers will go on a fascinating trip around the world, through the making of arts and crafts. They will 'visit' East Africa by stringing traditional Maasai beaded bracelets; 'travel' South to Mexico to make colorful prints and masks for the 'Day of the Dead' celebration; and 'fly' across the seas to Australia, to recreate aboriginal cave drawings. The study of multicultural art will give campers a chance to explore the traditions of people from different places and backgrounds.

June 26-30, AM

Messy Art

Slippery, slimy, ooey, gooey art done with paint, clay, and a variety of other materials, gives campers the chance to engage in an exciting variety of sensory experiences. Each day of the week, campers will work on a different art piece that will challenge their ideas of the 'normal' conventions of art. Plan to get messy...!

July 24-28, AM

MUSIC/CULTURE

Explore Japan - Highland Only

Konnichiwa (Good day)! Explore the language and culture of Japan through hands-on activities taught by students and staff from Willamette University and Tokyo International University of America. Campers will have the opportunity to interact with native Japanese speakers and experience culture from a whole new perspective, by learning the techniques of origami, Japanese songs, and much more!

July 10-14, AM

Kinetic Kids - Morningside Only

Aspiring musicians wanted! Campers will use music and movement to work on coordination, balance, flexibility, strength, and spatial awareness. They will make their own instruments and gain exposure to different styles of music and dance from around the world.

July 10-14, AM

Act Out!

Lights, camera, action! Campers sharpen their acting skills with theater games, improv, sing-a-longs, costume play, and storytelling. They will learn the basics of stage acting, while having fun with traditional classics such as The Wizard of Oz and the famous books of Roald Dahl.

July 31 - August 4, AM

Peace Village

Campers discover how to build understanding and create peace within their communities by learning about the natural environment, other cultures, and how to 'give back'. They will engage in activities that include: using magnifying glasses to study things in nature, playing teambuilding games, and the basics of yoga.

August 7-11, AM

Passport Around the World

Get your passport stamped! Campers will create their own passports and 'take a trip' around the world to learn about the animals, people, culture, food, and landscapes of some of our planet's most interesting places. They will 'travel' and be a tourist in a new country each day of the week, and become local experts by day's end.

August 14-18, PM

HEALTH/GARDENING

Garden Sprouts

Young gardeners will learn the basics of plant care, growing fruits and vegetables, seasonal changes, and the science of gardening. They will explore the theme of sustainability by looking at plants and foods that grow regionally in the Pacific Northwest. Campers will investigate the natural world through hands-on activities in the soil, and should come ready to get dirty!

June 26-30, PM

August 22-25, PM

Rootopia

Rootopia focuses on the importance of growing, cooking, and eating together, with a 'farm to fork' inspiration. Healthy eating, garden-themed activities, menu planning, walks in nature, and active living are highlighted throughout the week. Campers will learn how to cook for themselves and follow nutritious recipes, instilling a life-long commitment to healthy living.

July 17-21, AM

Smoothies and Snacks

Fill a bowl full of ingredients, grab a blender, and voila...You have healthy, yummy snacks with the push of a button! Campers will explore a variety of 'no-bake' recipes and learn how to make quick, nutritious snacks at home. Featured recipes include: granola bars, hummus, smoothies, dips, fruit roll-ups, and more.

July 3-7, AM

The Breakfast Club

As they say, breakfast is the most important meal of the day! Campers will get the opportunity to become aspiring breakfast chefs and cook traditional breakfast fare, as well as put their own spin on the classic morning meal. They will also look at breakfast traditions around the world and learn how people from other countries start their day.

July 31 - August 4, PM

SPORTS

Basketball Camp

Get ready for a week of basketball skill development. Campers will focus on specific skills including: passing, hand dribbling, defense, shooting, and rebounding; and learn important concepts of teamwork, different positions, and game play.

July 31 - August 4, PM

Soccer Camp

Spend the week learning the skills of soccer. Campers will focus on specific skills including: passing, controlling the ball, shooting, and foot dribbling; and learn important concepts of teamwork, different positions, and game play.

July 10-14, AM

Fitness Fun

Campers will engage in lots of running, jumping, moving, and stretching in an open gym environment. They will learn how to work as a team to complete a variety of physical obstacle courses and small group competitions. Balls, mats, and hoops will be used to create games and challenges, and campers will have fun while moving and working out. Please be prepared by wearing sneakers and athletic clothing.

July 3-7, PM

July 24-28 AM

Zen Masters

Become a 'Zen master' by learning beginner's Yoga poses and practicing various relaxation and meditation techniques. Campers will create imagery in their minds while listening to stories told by instructors. In addition, they will learn about breathing techniques and how to create a calming and peaceful environment. Learn how to deal with stress and relax the mind while engaging in fun physical exercises and stretches.

August 22-25, AM

Sports All-Stars

Get moving! Basketball, flag football, soccer, kick ball, and a variety of other sports will be highlighted throughout the week to encourage skill development and a passion for fitness. Campers will participate in an 'All Sports Olympics' event at the end of the week that will challenge them to show off their skills by completing an obstacle course.

June 26-30, PM

GAMES/ EXPLORATORY

Beginner's Chess

Learn the basics of chess with a combination of computer programs, fun activities, games, and instructor review. Campers will challenge one another to exciting chess tournaments and game play.

August 7-11, PM

Scavenger Hunters

Calling all adventurers! Campers will engage in themed scavenger hunts, designed to challenge their problem-solving skills and ability to work well with others. They will follow clues in order to solve mysteries and go on quests! Themes may include: nature, alphabet walk, and neighborhood. Happy hunting!

July 24-28, PM

Animal Tracks

Campers learn to identify animal prints and track patterns by studying different mammals from the Pacific Northwest and around the world. They will get the opportunity to mimic these animals and print their own tracks, and will be challenged toward the end of the week to become a 'wildlife biologist' and identify tracks they 'find' in nature!

August 14-18, AM

July 3-7, PM

3-5 camp descriptions

STEM

Tinkerspace

Tinkering is a process that means to fix, make, change, modify, and customize. Campers will spend the week exploring scientific concepts through 'tinkering' with various materials, while learning about sound, circuits, magnetism, and motors.

July 3-7, PM

Young Inventors

Be the next Thomas Edison! Learn the fundamentals of science and engineering by using salvaged materials, motors, simple machines, and more, to create a variety of functioning inventions. Campers will explore, build, and test models that fly, roll, and move.

July 17-21, PM

Mindstorm Lego Robotics

Learn robotics with LEGO Mindstorm NXT. Campers will engage in a combination of robotics and programming, and be able to turn LEGO bricks, gears, and motors into a programmable robot that can be taught to accomplish several tasks. Challenges for the robot may include driving through a maze, picking up and moving objects, and responding to light, sound, touch, and more.

July 17-21, AM

Hands On Science

Understand the concepts behind molecules, polymers, air pressure, Newton's 3 laws of motion, nutrition, and more, through hands-on activities that make learning fun and exciting. Campers will use everything from soda, water balloons, oil, and iron fortified cereal to explore the wonders of science and natural phenomena.

August 7-11, AM

Backyard Chemistry

What do scrambled eggs, a first aid cold pack, and soda have in common? Chemistry! Campers will spend the week testing physical and chemical reactions through applied experiments with ordinary household products.

June 26-30, PM

August 22-25, PM

Creatures of Oregon

Learn about Oregon's wackiest creatures that fly, find shelter from rainy skies, and swim in our rivers. Campers will use binoculars to identify local bird species, dissect owl pellets, and discover why Oregon is called the 'Beaver State', with guest speakers from the Salem Audubon Society.

August 14-18, AM

Awesome Eclipse Adventures

Blast off! Campers will navigate fascinating aspects of our solar system, and learn about everything from the Hubble Telescope to the mysterious black holes of deep outer space. They will also engage in activities from NASA's education project and become eclipse experts, in preparation for this summer's historic event: the 2017 total solar eclipse!

July 24-28, PM

August 14-18, PM

Science of Sports

Have you ever wondered why a baseball field is in the shape of a diamond or how soccer players know how to aim toward the goal? The Science of Sports is a fun learning experience that links mathematics and science topics to the sports of baseball and soccer in an engaging way. For example, campers learn about geometry by launching water balloons at various angles and aiming for accuracy on the baseball field. They also learn about healthy lifestyle choices, character development, and nutrition.

July 10- 14, AM

Rocketeers

Build and launch a variety of air and water rockets using a combination of models and practical tests. Campers will learn the basics of aerodynamics, calculate altitude, and measure launch distances. They will also work in teams to design, build, and launch their own working rocket models.

August 7-11, PM

Geocache 101

Campers use handheld GPS units to discover the world of geocaches. Input coordinates to begin a journey for hidden treasure! Campers develop map-reading skills, become familiar with Google Earth technology, and design their own geocaches for others to find. Geocache web applications will be used to search the many caches right here in Salem, Oregon!

July 31 - August 4, PM

ARTS/CRAFTS

Paper Made Magic

Paper, whether it is ripped, shredded, folded, or sculpted, can be transformed into amazing works of art. Campers will make jewelry, journals, vases, toys, and more, out of recycled newspapers and other materials, and experiment with paper mache, origami, quilling, and sewing. At the end of the week, participants will put their marvelous paper creations on display for all to see.

July 10-14, AM

Arts Attack

Express your creativity! Campers will use traditional and mixed media materials to develop artistic skills and present their individuality through art mediums such as painting, printmaking, and portraits. They will learn about famous artists and their amazing influences on society throughout history.

July 17-21, AM

August 22-25, AM

Multicultural Creations

Campers will go on a fascinating trip around the world, through the making of arts and crafts. They will 'visit' East Africa by stringing traditional Maasai beaded bracelets; 'travel' South to Mexico to make colorful prints and masks for the 'Day of the Dead' celebration; and 'fly' across the seas to Australia, to recreate aboriginal cave drawings. The study of multicultural art will give campers a chance to explore the traditions of people from different places and backgrounds.

June 26-30, PM

Stop Motion Movie Makers

Campers will work in groups to create animation projects that include Claymation, toy animation, and hand drawn animation. Through the process of creating these short films, they will work on story and character development, camera technique, frame-by-frame image capturing, video editing, and more!

July 24-28, PM

MUSIC/CULTURE

Explore Japan - Highland Only

Konnichiwa (Good day)! Explore the language and culture of Japan through hands-on activities taught by students and staff from Willamette University and Tokyo International University of America. Campers will have the opportunity to interact with native Japanese speakers and experience culture from a whole new perspective, by learning the techniques of origami, Japanese songs, and much more!

July 10-14, PM

Hip-Hoppers

Learn the basic street moves of hip-hop through this dynamic and energetic form of dance. Students will learn the fundamentals of hip hop and its origin. The week culminates with a special performance for the camp and parents.

July 10-14, PM, Morningside Only

July 24-28, AM

Act Out!

Lights, camera, action! Campers sharpen their acting skills with theater games, improv, sing-a-longs, costume play, and storytelling. They will learn the basics of stage acting, while having fun with traditional classics such as The Wizard of Oz and the famous books of Roald Dahl.

July 31 - August 4, PM

June 26-30, AM

GAMES/ EXPLORATORY

Chess

Checkmate! Whether you're a beginner or a master, spend the week learning new moves, strategies, and tactics designed to make you an even more competitive chess player. Campers will use a combination of computer programs, practice games, and instructor review to improve their overall game.

August 7-11, AM

Survival Camp

Summer is a perfect time to learn survival basics in the great outdoors. Campers will learn the fundamentals of having a base camp, creating a shelter, cleaning water and learning how to forage food. They will practice their skills in a variety of survival scenarios throughout the week.

Program Cancellation and Refund Policy

The purpose of our refund policy is to allow SKEF to offer quality programs and proper class ratios while maintaining flexibility for you. SKEF reserves the right to cancel or combine classes/programs because of insufficient enrollment or conditions beyond our control. If we combine classes and the rescheduling prevents you from participating; and/or cancel a program you will be given a full credit towards another class/program or a full refund. In order to keep our fees as low as possible, we will not be able to issue refunds for missed classes or activities, even if they occur as a result of inclement weather. If a participant needs to withdraw from an activity for any reason, SKEF must be notified in writing at least 7 days before the activity begins and a full credit or refund, less a non-refundable \$25 registration fee, will be issued within 2-4 weeks of the cancellation.
